

RIPE

The IANA Numbering Services Review Committee

Nurani Nimpuno

CRISP proposal

•III.A.4. Establishment of a Review Committee

- To ensure that the service level defined in the proposed agreement is maintained by the IANA Numbering Services Operator, the NRO EC will periodically review the service level of the IANA Numbering Services provided to the Internet Number Community.
- The RIRs shall establish a Review Committee that will advise and assist the NRO EC in its periodic review. The Review Committee will, as needed, undertake a review of the level of service received from the IANA Numbering Services Operator and report to the NRO EC any concerns regarding the performance of the IANA Numbering Services Operator, including especially any observed failure or near- failure by the IANA Numbering Services Operator to meet its obligations under the proposed agreement. Any such Review Committee will advise the NRO EC in its capacity solely to oversee the performance of the IANA Numbering Services, and the Review Committee's advice and comment will be limited to the processes followed in the IANA Numbering Services Operator's performance under the proposed agreement. Activities of the Review Committee shall be conducted in an open and transparent manner. Reports from the Review Committee shall be published.
- The Review Committee should be a team composed of suitably qualified Internet Number Community representatives from each RIR region. The selection of the Review Committee members should be conducted in an open, transparent, and bottom-up manner appropriate for each RIR region. There should be equal representation from each RIR region within the Review Committee.

Review committee

- Formed in Nov 2016
- 15 members
- Representatives from all five RIR regions
- RIPE members:
 - Nurani Nimpuno (chair)
 - Filiz Yilmaz
 - Andrew de la Haye (RIR staff)

Review process

- Community driven process to give the RIRs input in their review
- Public consultation and report once a year every January
 - Gather community input and provides a public summary
