Go go go, RIPE Atlas!

Jerry Lundström
Software Engineer

RIPE Atlas API binding for Go

- Get Atlas measurements:
 - from JSON files
 - from Atlas RESTful API
 - from Atlas streaming API
- Measurement data structures
 - ping, traceroute, DNS, HTTP Get, NTP, SSLCert and Wifi

RIPE Atlas API binding for Go

```
18 func main() {
19     a := ripeatlas.Atlaser(ripeatlas.NewStream())
20     c, _ := a.MeasurementResults(ripeatlas.Params{"type": "dns"})
21     for r := range c {
22         print(r.DnsResult())
23         for _, s := range r.DnsResultsets() {
24             print(s.Result())
25         }
26     }
27 }
```
